 Physical Medicine & Rehabilitation
 Pulmonology
 Rheumatology
 Trauma Surgery

Many Minds. One Group.

Jessica Saunders, MD, is a pediatric pulmonologist at Joe DiMaggio Children's Hospital. She cares for children with a variety of pulmonary diseases including asthma, chronic cough, premature lung disease, cystic fibrosis (CF), aerodigestive disorders and primary ciliary dyskinesia (PCD).

Throughout her training at Indiana University and Riley Hospital for Children, she has contributed to various research projects focused on improving outcomes for patients with asthma, CF and PCD and has gained an understanding of how future research is essential to improving the care of patients.

Now, working with patients and families, Dr. Saunders builds partnerships that help improve children's health and allow them and their families to feel seen, heard and valued. She also continues to be involved in writing, researching and presenting at national respiratory conferences.

JESSICA SAUNDERS, MD PEDIATRIC PULMONOLOGIST
