Trauma Surgery

Many Minds. One Group.

Fawad Yousuf, MD, is a board-certified neurologist at Memorial Healthcare System where he treats patients with a wide array of complex neurological disorders. This includes cerebrovascular disease, acute stroke syndromes, stroke mimics, vasculitis, autoimmune encephalitis, autoimmune neurological disorders, myasthenia gravis, Guillain-Barré syndrome, posterior reversible encephalopathy syndrome (PRES), status epilepticus/seizure disorder and acute headache syndromes.

He also specializes in vascular neurology and neuroimmunology and enjoys working with patients with cerebrovascular pathologies and neuroimmunological disorders including multiple sclerosis. He has completed fellowships in neuroimaging and multiple sclerosis and vascular neurology.

Dr. Yousuf has a strong passion for the research and clinical aspects of neurology. He develops long-term relationships with those he treats and is intrigued by the constant and ever-developing technologies that can help his patients.

Dr. Yousuf has published and presented his work on both national and international platforms. His areas of research include cerebrovascular disorders, Susac syndrome, the treatment effect of multiple disease-modifying therapies on MRI metrics in patients with multiple sclerosis and neuroimaging. Dr. Yousuf also teaches residents and medical students, helping to prepare the next generation of neurologists.

FAWAD YOUSUF, MD NEUROLOGIST

- Fellowship:
 - Vascular Neurology – University of Miami Miller School of Medicine Miami, Florida, 2023
 - Post-doctoral Research Fellowship, Neuroimaging and Multiple Sclerosis – Brigham and Women's Hospital, Harvard Medical School, Boston, Massachusetts, 2017
- Residency:
 - Neurology – University of Kentucky Chandler Medical Center Lexington, Kentucky, 2021
- Internship:
 - Neurology/ Internal Medicine – University of Kentucky Chandler Medical Center Lexington, Kentucky, 2018
- Medical Education:
 - Allama Iqbal Medical College, Lahore, Pakistan, 2006

Medicine in Mind. Patients at Heart.
