Otolaryngology
Palliative Care
Physical Medicine & Rehabilitation
Pulmonology
Rheumatology
Trauma Surgery

Many Minds. One Group.

Davis B. Horkan, MD, is a general surgeon at Memorial Healthcare System. He cares for patients with a variety of problems including gallbladder diseases, hernias of the abdominal wall and groin, appendix diseases, colon problems including colon cancer and diverticulosis/diverticulitis related diseases, hemorrhoids, surgical problems of the small intestine and removal of cysts and masses from under the skin. He also has expertise and experience with minimally invasive surgical options and offers them to patients when possible.

Dr. Horkan honors and respects patients time and helps get their problem solved. When working with patients, he focuses on the problem at hand, reviews the information available and discusses what options are available for further work-up or treatment. He wants all patients to know their options and understand the risks and benefits of each, then guides them to deciding on the care that best fits their needs.

In addition to caring for patients, Dr. Horkan helps educate medical students and surgeons in training. Before joining Memorial, he worked at St. Mary's Medical Group in Athens, Georgia where he was an assistant professor of Clinical Surgery for the Augusta University/University of Georgia Medical Partnership teaching general surgery to medical students. He also created and coordinated the Surgical Intern Boot Camp for the General Surgery Residency Program at the Jackson Health System/University of Miami during his years of surgical training.

DAVIS B. HORKAN, MD GENERAL SURGEON

- Residency:
 - General Surgery - Jackson Health System/University of Miami, Miami, Florida, 2019
- Research Fellowship:
 - Pediatric Surgical Outcomes, 2016
 - Vascular Biology - University of Miami, Miami, Florida, 2015
- Medical Education:
 - Medical College of Georgia, Augusta, Georgia, 2012

Medicine in Mind. Patients at Heart.
