

## Memorial Physician Group

### ADULT SPECIALTIES

Adult Congenital Heart Disease  
Advanced Endoscopy & Gastroenterology  
Breast Medical Oncology  
Breast Surgical Oncology  
Cardiac Surgery  
Cardiology/Heart Failure & Transplant  
Colon & Rectal Surgery  
Cystic Fibrosis  
Endocrine/Thyroid Surgery  
Endocrinology  
Family Medicine  
General & Bariatric Surgery  
Head & Neck Oncology  
Hematology/Oncology  
Infectious Disease  
Integrative Medicine  
Intensivists  
Internal Medicine  
Interventional Cardiology  
Interventional Neuroradiology  
Kidney Transplant  
Neurology  
Neurosurgery  
Obstetrics & Gynecology (High-Risk)  
Orthopaedic Surgery & Sports Medicine  
Otolaryngology  
Palliative Care  
Physical Medicine & Rehabilitation  
Pulmonology  
Surgical Oncology  
Thoracic Surgery  
Trauma Surgery  
Urologic Oncology  
Vascular Surgery  
Wound Care/Hyperbaric Medicine

### PEDIATRIC SPECIALTIES

Adolescent Medicine  
Cardiac Surgery  
Cardiology/Heart Failure & Transplant  
Child & Adolescent Psychiatry  
Cleft & Craniofacial Center  
Complex Gastroenterology  
Congenital Heart Disease  
Endocrinology  
General Surgery  
Genetics  
Hematology/Oncology  
Immunology & Allergy  
Interventional Cardiology  
Kidney Transplant  
Nephrology  
Neurology  
Neurosurgery  
Orthopaedic Surgery & Sports Medicine  
Otolaryngology  
Palliative Care  
Physical Medicine & Rehabilitation  
Pulmonology  
Rheumatology  
Trauma Surgery

## Many Minds. One Group.

Marcela Fundaminsky, MD, is a primary care physician at Memorial Healthcare System. She cares for patients with chronic diseases and conditions including diabetes, hypertension, high cholesterol, arthritis, heart disease, kidney disease, skin problems and pulmonary diseases such as asthma and COPD. She also treats everyday conditions such as the common cold, cough, flu, sore throat, ear infections and urinary tract infections.

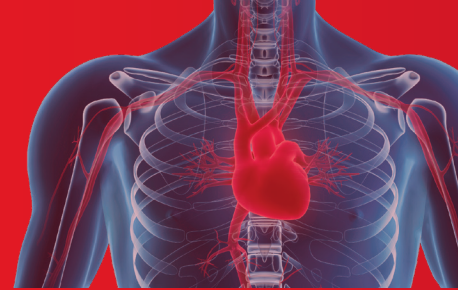

Dr. Fundaminsky views patients as full and complex human beings, not just the condition or concern with which they present. She believes it is crucial to factor in the physical, mental and spiritual conditions at play to determine the best way forward.

She also earned a Master of Public Health degree, which facilitates expanding her perspective and knowledge on health prevention from the individual toward society and communities.

### MARCELA FUNDAMINSKY, MD FAMILY MEDICINE

- Fellowship:
  - Research in Prevention and Epidemiology of Substance Abuse – Comprehensive Drug Research Center, University of Miami Miller School of Medicine, Miami, Florida, 1999
- Residency:
  - Family Medicine – University of Miami Miller School of Medicine, Miami, Florida, 2002
- Medical Education:
  - Universidad Central de Venezuela, Caracas, Venezuela, 1990
- Master's:
  - Public Health (MPH) – University of Miami, Miami, Florida, 1999

# Many Minds. One Group.

Miguel A. Castro, MD, is an advanced heart failure cardiologist at Memorial Healthcare System. He specializes in the treatment of patients with heart failure including cardiac transplantation and left ventricular assist device, cardiogenic shock, pulmonary hypertension, hypertrophic cardiomyopathy, cardiac sarcoidosis, cardiac amyloidosis and OB-GYN patients with high cardiovascular risk.

Dr. Castro also performs right heart catheterizations, endomyocardial biopsies, PA catheter sensor implantations and intra-aortic balloon pump placements, as well as performs and interprets echocardiograms and cardiopulmonary exercise testing.

He works with a collaborative team to provide the critical care necessary for patients with complex heart conditions. Dr. Castro tailors care to meet each patient's goals while also maintaining a holistic approach to health. His goal is always to make a meaningful improvement in the quality and longevity of life for his patients.

Dr. Castro is a member of the American College of Cardiology, and his research interests include cardiac sarcoidosis, pulmonary hypertension and pulmonary artery sensor monitoring.

# Many Minds. One Group.

Samantha B. Allen, MD, is a pediatric otolaryngologist (ENT) at Joe DiMaggio Children's Hospital. She cares for children, adolescents and teens with hearing loss, chronic ear infections and sleep apnea. She also manages airway diseases, swallowing disorders, voice conditions and a variety of head and neck pathologies.

As a pediatric ENT, Dr. Allen offers both medical and surgical management of conditions to help children thrive. Improvements in hearing or sleep quality have lasting effects that are seen shortly after treatment. Addressing swallowing and voice disorders can also have a significant positive impact on patients' growth and development.

When working with patients and their families, Dr. Allen spends as much time as needed answering questions about their conditions and planning the best way to move forward. She believes it's important for everyone to be comfortable with plans of action for patient care.

In addition to her work with patients, Dr. Allen is a fellow of the American Society of Pediatric Otolaryngology.

## SAMANTHA B. ALLEN, MD PEDIATRIC OTOLARYNGOLOGY

- Fellowship:
  - Pediatric Otolaryngology - Children's National Medical Center, Washington, DC, 2021
- Residency:
  - Otolaryngology - University of Louisville, Louisville, Kentucky, 2020
- Medical Education:
  - University of Louisville School of Medicine, Louisville, Kentucky, 2015
